

# Configuring the WebDriver

**Andrejs Doronins**

Software Developer in Test

# Overview

**Change window size**

**Set Headless mode**

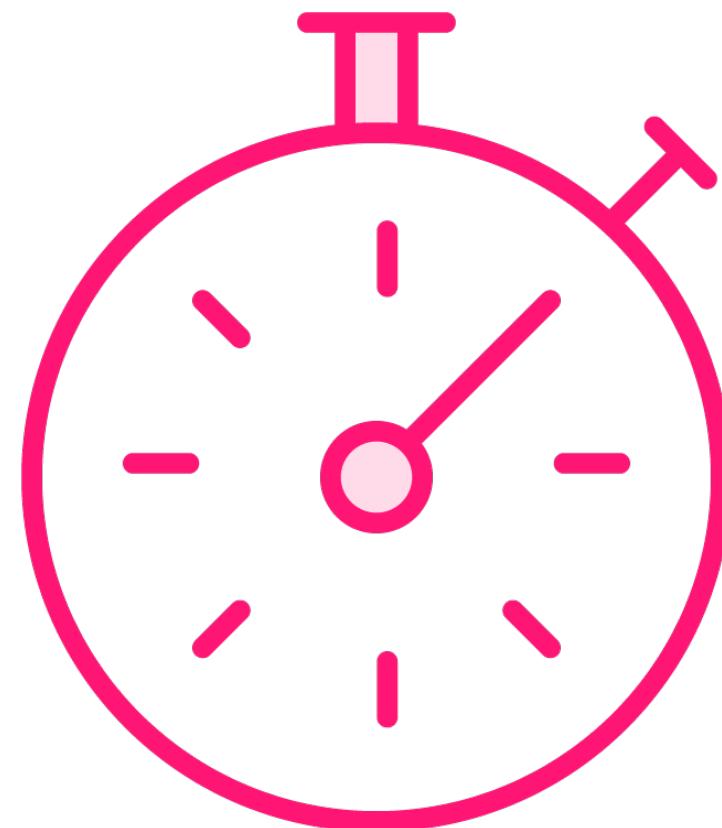

**Handle alerts by default**

**Emulate a device**

**Capture console logs**

# Speeding Up Test Execution

**Parallel execution**

**Run in headless mode**

- Consume fewer resources
- Opening a browser window is very expensive (time-consuming)

**Up Next:**

# Leveraging DevTools
